

Web browsing 101 – How to change the size of text on a website. Use the following options to adjust appearance of text on a web page to meet your needs.

Internet Explorer Browser

1. Launch Internet Explorer
2. Open Tools, Options, General
3. Accessibility button
4. Select the Ignore Font Sizes on the web page's check box
5. Click OK

Option 2: If you have a wheel mouse, place the cursor within the web page and hold the control key down. Move the wheel to either enlarge or diminish the font size.

Option 3: Click on the view button on the browser Menu Bar. Highlight Text Size and change to the size you want.

FireFox and Netscape Browsers

Click on the View button on the browser Menu Bar. Highlight Text Size and Increase or Decrease the text size.
